Support for students targeted by AI-generated fake images

SCHOOL LICENSING

2026–27 academic year

AI-generated fake images are the fastest-growing form of bullying. Give your students a safe first step — and your staff a clear response.

Bully Shield is a calm, teen-friendly web app for students targeted by AI-made fake or explicit imagery. It guides them through a step-by-step protection plan, connects them to official takedown tools (Report Remove / IWF, Take It Down / NCMEC) that remove images without ever uploading the picture, and offers a supportive AI companion that always signposts to trusted adults and crisis lines.

What your school receives

- School-licensed Bully Shield app for all students
- Staff dashboard: anonymised usage & trend insights
- Safeguarding-policy pack aligned to KCSIE guidance
- Staff training session + parent awareness materials
- Assembly/PSHE lesson resources on AI fakes
- Priority support and termly content updates

Safeguarding by design

- The app never handles or stores any image
- Takedown tools fingerprint images on-device only
- AI companion never requests or views imagery
- Always signposts trusted adults & crisis lines
- No ads, no tracking, no student data sold — ever
- Anonymous to students; no accounts required

SIMPLE ANNUAL LICENSING

Primary / small school

up to 500 students

£395 / year

Secondary school

up to 1,500 students

£695 / year

Large school / college

1,500+ students

£995 / year

Multi-academy trust

per-school rate

from £295

All licences include staff training, the safeguarding pack, updates, and support. Local-authority and trust-wide pricing on request.

Why schools are acting now

Creating or sharing sexual or fake-sexual images of under-18s is a criminal offence in the UK — including AI-generated images — and schools have statutory safeguarding duties when incidents occur. In the US, the TAKE IT DOWN Act now requires platforms to remove reported intimate images, real or AI-made, within 48 hours. Bully Shield gives students a trusted first step and gives your staff a consistent, documented response.
